JAMES G. TOMSON

JOHN R. TOMSON

We have always worked for the best interests of Shorthorns, and appreciate the co-operation we have received.

JAMES G. TOMSON, JR.

Our experience

Our experience during the 68 years we have been breeding Shorthorns has taught us to breed a class of cattle that have the ability to develop and thrive under normal conditions, cattle that can work improvement in the commercial herds over the country as well as on purebreds.

This requires cattle that have a natural flesh covering, with thickness and depth of body. Such cattle can consume and make good gains on our grasses and rough feeds, and these are the kind that make the best gains in the feed lot when they go in for the finish. We have tried to produce this class of cattle for our customer and they seem to give satisfaction.

We think you will agree that we are offering the best lot of bulls we have ever offered for sale.

The 13 sons of Beaufort Barony are extremely uniform in their conformation. All have good heads, smooth flesh covering, remarkable depth of body, broad full quarters, with bone enough to carry them.

P F Fortune and his five sons are low set, thick fleshed bulls, that will appeal to breeders.

The females are from our reliable families. All of breeding age will be bred. They are not in high condition but are in thrifty breeding form and ready to produce for their buyers.

All we Tomsons sincerely hope you can be with us on October 28th as our guests. The cattle will be good and no doubt there will be many bargains in the sale that will enable you to make profitable investments.

Sincerely,

Tomson Bros.

BEAUFORT BARONY

GREGG FARMS COMMANDER - Has proven to be a valuable sire in our herd. His calves have consistently sold at the top in the Kansas State Shorthorn Breeders Sales, and Mid-Kansas Sales, held at Hutchinson and Salina during the past two years. A number of his sons are now in service in select herds in various states. The bulls by him in this sale will interest you. His masculine head, level lines, thick smooth flesh covering and depth of body will appeal to breeders. Seven of his daughters are included in this sale, and we are retaining twenty five of them for replacement females in our herd.

CRUGGLETON PENTLAND FIRTH - Has proved an outstanding breeder, and six calves by him averaged 1066 guineas in 1951. At Perth in February, 1952, his average went up to £2467 10 - with a top price of 4100 guineas. Another of his sons, Beaufort Bulldozer, was sold privately in the autumn for £5000. Now in service at Edellyn Farms.

CLUNY VICTOR - Was shipped by the Scottish Cattle Company to Senor Martinez de Hoz, and was sire of the supreme champion at Palermo in 1950, and was himself a 2d prize winner at Perth.

PRINCESS PAMELA - Won 1st prize at the Royal Show at York. She also won at the Royal Highland Show at Inverness, besides many other local events in Scotland. Her bull calf, Beaufort Breakwater (also by Cruggleton Pentland Firth), was sold privately to Mrs. Leishman of Australia for £1500.

BEAUFORT BARONY - Was purchased by us in the 1953 Perth Sale. We used him freely in our herd before selling him to Hollis Hanson for use in his Hanson Heights Herd. Many breeders rate him as an outstanding sire.

He sired a remarkably good lot of calves in our herd, and we are offering the bull calves in this sale. We think you will agree that they are an outstanding group. Their good heads, deep bodies, smooth flesh covering, and broad full quarters, well placed on strong legs, are pleasing to all who see them.

His half brother, Beaufort Bulldozer, in service in the Edellyn Herd, sired both Grand Champions at the International in 1954.

P F FORTUNE

By Phopachy Fortune. Unretouched amateur snapshot. If you like short-
lanned, blocky Shorthorns with scale, his calves are the answer.

P F FORTUNE - Is a very deep-bodied, smooth, short-legged bull by the great breeding sire, Phopachy Fortune, by Kirkton Baronet. He is out of a cow by imported Iceni Commodore that was second in class at the Iowa State Fair. P F Fortune was Grand Champion Bull at the 1952 All Iowa Fair. He has been in use in our herd for the past three years, and has sired a grand lot of low set, thick-fleshed calves. Ten of his daughters and five bulls are included in this sale. Several females in the sale are bred to him. We are retaining a number of his daughters in our breeding herd. He is in prime condition for future service and will improve the herd that is fortunate enough to get him.

★ ★ ★ SHORTHORNS ★ ★ ★
About the Cattle

The commercial cattle we offer are a high quality group, not just a few good ones, but every one good. They are directly from or descended from females we have purchased from the Henry J. Brown and Sons Ranch, Folsom, New Mexico. Carefully selected registered bulls have been used by the Browns for the past 65 years. The advantage of good ancestry is very evident in this offering.

40 top steer calves, real prospects for calf club projects. Will be vaccinated for Black Leg. Weaned, started on feed and ready to really gain for you.

20 foundation quality heifer calves, ideal for the start of a top commercial herd. Will be vaccinated for Black Leg and official Calfhood Bangs.

50 young Shorthorn cows. Bred to outstanding bulls, they will appeal to the critical buyer. All were given Calfhood Vaccination.

GROUP OF STEERS FROM THE BROWN RANCH.

J. G. Tomson, Jr. inspects a field of commercial white hybrid, produced from one of the outstanding Tomson Hybrid white varieties.

The tremendous increase in Tomson Hybrid sales in the Southwestern corn growing area over the past 17 years is the best testimonial to our policy of endless research, careful selection, sound development, expert detasseling, and rigid standards of production employed in the production of our hybrid seed corn.

Tomson Hybrids are grown in Kansas from inbreds basically developed from native open pollinated corn, insuring true adaptability to the Southwestern corn growing conditions.

The best adapted seed stock, plus local hybrid production, plus the know-how of many years of hybrid seed corn production with the most modern machinery and expert supervision available, add up to the very best hybrid seed corn for this area.

This year we have been favored with a tremendous seed crop, grown in irrigated fields of The Kaw Valley. We will have a good supply of seed corn varieties of all maturities, including the very best white and ensilage varieties for this corn growing area. The quality of our seed is excellent.

We invite all of you to ask us about our seed corn varieties and prices, as we are sure we can fill your seed corn needs with the best varieties for this area, and at a minimum cost.
